

DS1402x MicroLAN Cables

www.dalsemi.com

FEATURES

- Coiled cables to connect <u>i</u>Buttons to MicroLAN Networks
- Convenient, off-the-shelf connectivity
- Touch and Hold Probes DS1402RP and DS1402BP for momentary touch (F3/F5 MicroCan) or dwelled contact (F5 MicroCan only) in two cable lengths (0.9 m and 2.4 m max.)
- Blue Dot Dual Receptors for momentary (F3/F5 MicroCan) or dwelled contact (F5 MicroCan only) with velcro backing to mount on objects (DS1402D-DB8, DS1402D-DR8, each 2.4 m max.)
- <u>i</u>ButtonTM cables to connect COM Port to <u>i</u>Button Holder (DS1402BR) and to daisychain <u>i</u>Button Holders (DS1402BB) in 2.4 m length max.
- RJ-11 cables DS1402RR to extend the length of a probe or button cable to 2.4 m length max.
- Can be used with any Dallas Semiconductor port adapter
- <u>i</u>Buttons can be connected in any combination

ORDERING INFORMATION

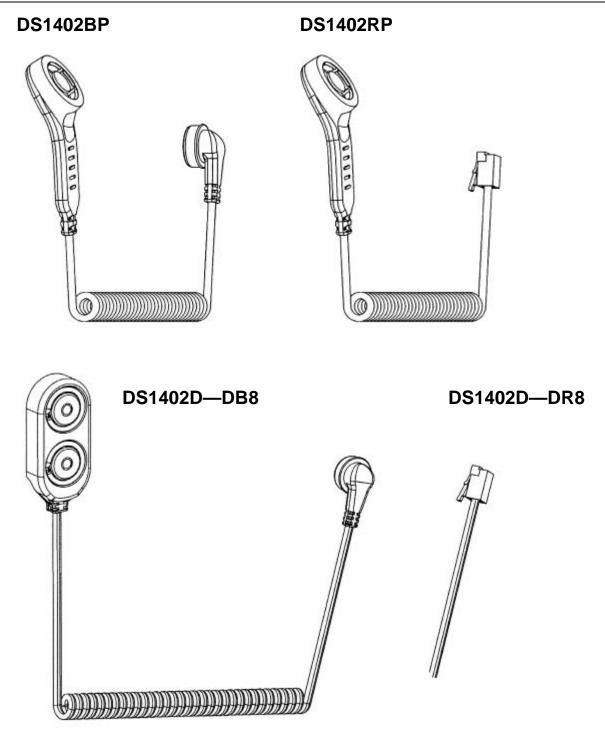

DS1402BB8	2.4 meter (8 feet) cable
DS1402BR8	2.4 meter (8 feet) cable
DS1402RR8	2.4 meter (8 feet) cable
DS1402BP8	2.4 meter (8 feet) cable
DS1402RP3	0.9 meter (3 feet) cable
DS1402RP8	2.4 meter (8 feet) cable
DS1402D-DB8	2.4 meter (8 feet) cable
DS1402D-DR8	2.4 meter (8 feet) cable

DS1402BR

DS1402RR

DESCRIPTION

Using four basic types of connectors, RJ-11, <u>i</u>Button, Touch and Hold Probe and Blue Dot Receptor, the DS1402 series of MicroLAN cables provides connectivity for <u>i</u>Buttons. The cables are designed to connect COM-port adapter or parallel port adapter to any type of DS1401 front panel <u>i</u>Button Holder or Touch And Hold Probe. The two versions of the Blue Dot Receptor directly connect to any port adapter. Applications range from software protection to handheld computers and complex MicroLANs.
